Sorenson ranch

Welcome:

We would like to welcome you to our annual production sale. We are extremely grateful for your interest in our cattle. We are highly excited about this year's offerings of bulls and females, including for the first time registered bred and open heifers.

Our cattle are highly functional in our environment and as a family operation we demand docility in our herd. The cows in our operation are easy fleshing and able to raise bulls and steers that push down the scale and females that are fertile and have longevity. Our herd consists of both registered and commercial COWS.

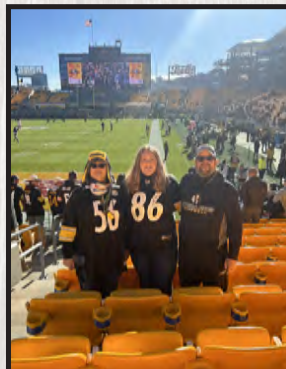

We do NOT creep feed the bulls before weaning time. The weaning weights from the bulls come naturally from the dams milk and genetics. Our bulls are pail fed twice a day consisting of CHS bull challenger, corn, and oats ration with a free choice of grass hay along with a Smartlic mineral tub. We changed our ratio this year due to the high feed cost. We had a nutritionist figure out a new ration with the feedstuffs that were grown locally. We feed the bulls a ration that involves lots of growth and is highly functional with the goal of the bulls gaining approximately 3.5 pounds a day.

Again this year we were blessed with an abundance of moisture in early summer. But then it turned hot and dry during the rest of the summer. Again this fall, the bulls were weaned a little lighter than usual. Since weaning time they have hit the troughs hards and cranked on the pounds. We have had a nice winter for feeding and developing bulls. The bulls ADG was calculated on the 1st 65 days post weaning.

Previously we had been selling registered open and bred heifers along with an additional small amount of commercial heifers at the NorthWest North Dakota Select Simmental Sale for the past 15+ years. As of this year we will no longer be selling females at the NWNDSSS and will now be offering registered open and bred heifers in our sale. We are grateful for the opportunity we had of selling bulls and heifers at the sale and being able to improve our name and genetics alongside very successful Simmental/SimmAngus producers. Thank you to those who have supported us by purchasing our animals at the sale to reach a point that we are confident in selling our females in our own production sale. We are excited about the registered heifers we have in offering and the future heifers to come!

In closing, thank you for our support and the interest in our bull and heifers. We welcome you to visit our ranch anytime to view the bulls and heifers and the cowherd behind them. We offer a \$100 sale credit to those who come and view the animals on the ranch before the sale and those who visit the ranch have an opportunity to win an additional \$150 in sale credit. Give us a call if you have any questions or to set up a time to come visit the ranch. See you ringside March 5th! Thank you and God Bless.

Special Assignment: Scott Kueffler.....(701) 641-0519
Loren Sorenson:(701) 641-1140
Deidra Sorenson:(701) 641-6999

Breeding Guarantee: 1st season 90-day breeding guarantee. If any problems arise notify breeder in a timely manner and we guarantee we will work with you to meet your satisfactions as we want to keep you the customer happy. All bulls will be feed free of charge from sale day to when the bulls are delivered. During the last week of April they will be semen tested and given a breeding soundness exam. The bulls will be guaranteed breeders for a 90 day breeding period. They will continue to be out on grass in a large pasture. We have been using this practice for our bulls for several years. I feel by doing this we are preparing them for soundness and for many breeding seasons to come. We will then make arrangements to deliver the bulls free of charge starting the beginning of May and depending on the timely manner of springs work.

Sale Terms & Conditions: Dispute amongst bidders will be settled by the auctioneer by reopening the bidding among parties involved. The auctioneer's decision shall be final.

Again this year we will be broadcasting the sale via DVAuction and for those who cannot attend the sale, we will honor a phone order and guarantee your phone purchase to meet your request when inspected personally by you. Bulls will be sold to the highest bidder.

We would love to see you at our sale but we understand if you are unable to attend. If so please feel free to call us and we will work with you anyway possible to assist you in your bull purchases. For phone orders contact Scott Kueffler (701) 641-0519 & Terry Moe (701) 580-2426. As we have no control over the Acts of God, we cannot guarantee these cattle against death, loss, or sickness. Therefore, we encourage you the customer to take out insurance on our new purchases.

Terms and Conditions: Terms of sale are cash or check at the time of the sale unless other arrangements are made prior to the sale.

Risk: Anyone attending this sale attends at their own risk. Breeders or any of the sale staff will not be held responsible for any personal injury attending this sale.

Announcements: Announcements made from the auction block shall take precedents over printed material in this catalog.

Docility
Longevity

& Calves that PUSH DOWN the Scale

•
• **March 5th, 2025**
•
• **Sidney Livestock Market Center - 2PM CST**
•

Herd Health: At birth the bulls received Alpha 7, NasalGen, PMH pneumonia vaccine. At turnout they received 7-way and BoviShield Gold. At weaning time they received 7-way, Pyramid 5, & Nasal-Gen plus prespence and dewormer.

Updated Info: Bulls will be weighed and testicle measured. Updated data will be available on sale day. This data will be on our facebook page and DV Auction, or you can give us a call and we can email or text it prior to the sale. A supplement sheet will be available sale day with all the information on it including; ADG, WDA and Scrotal Measurement. Announcements made from the block take precedent over all printed materials.

Feeding Arrangements: Bulls will be feed free of charge. We will then make arrangements to deliver bulls once they pass their breeding soundness exam during the month of April. We are not responsible for accidents therefore we encourage you to insure your purchases.

Delivery: All bulls will be delivered free of charge within 500 mile radius, over 500 we will assist buyers in making the most economical arrangements for delivery. Bull will be delivered by approximately June 1st or earlier upon request.

Farm Visits: We encourage farm visits at your convenience. Again, this year we are offering every visitor to the ranch before March 3rd a \$100 credit on sale day. Each visitor will be put in a drawing and there will be an opportunity to win an additional \$150 credit on sale day.

Directions to the Farm:

Address: 14490 92nd St NW Grenora, ND

From Grenora: Go North on County Road 5 for 9 miles then turn East at 92nd St for 2 miles, ranch on right hand of the road.

Please contact either: Loren (701) 641-1140 or Deidra (701) 641-6999 ahead of time before visiting the ranch.

Videos and Catalog Viewing:

Watch for videos online at www.dvauction.com and be sure to follow us at  Sorenson Ranch

Updates & Supplement Sheets: Any updates to the sale and future supplement sheets can be found first on our Sorenson Ranch Facebook page and then on posted DVAuction.

This sale will be broadcast live on the internet.

Reference Sires:

BDV QB IGNITE 173F								
QB IGNITE D83 - BDV MS ROCKET 4B1								
Reg. #: 3553934 5/8 SM 3/8 AN								
EPD	CE	BW	WW	YW	ADG	MCE	MM	MWW
	9.0	2.3	79.0	123.5	0.28	5.2	18.9	58.3
EPD	CW	MARB	FAT	REA	API	TI		
	28.5	0.17	0.002	0.40	121.2	72.0		

BDV QB Ignite was our top pick at the 2020 BDV sale. BDV QB Ignite offers a big stout, deep body with a big powerful rib shape. When you analyze Ignite he is very complete with a moderate frame. He is a wide-bodied, big-butted bull that tracks wide, has rear-end that carries deep into his hock and possesses a ton of rib and flank, along with a big, wide topline. Baldy face with zero white on his underline. Ignites disposition is excellent, very easy going and gentle as they come and his bulls are no different. His daughters are the real deal! Full of capacity, easy fleshing, with a great disposition. Excellent mothers with great mothering instincts and nice udders. We couldn't be happier with his daughters. HE is an absolute all around bull.

ELLINGSON TURNPIKE K252								
RUBY'S TURNPIKE 771E - ELLINGSON TRAVELER S669								
Reg. #: 4088856 3/4 SM 1/4 AN								
EPD	CE	BW	WW	YW	ADG	MCE	MM	MWW
	10.5	0.8	84.0	137.1	0.33	5.4	27.3	69.3
EPD	CW	MARB	FAT	REA	API	TI		
	37.0	0.26	-0.052	1.12	129.2	82.9		

Ellingson Turnpike K252 is a homozygous black, homozygous polled son of Ruby's Turnpike 771E, who sires awesome phenotype with elite power and growth. His dam is by SAV 8180 Traveler 004 who sires progeny with extra length and muscle. She was a front cover cow for the Simmental Register magazine. K252's combination of calving ease, growth and high carcass traits make him a must use sire!

KECH MR. 875								
THR 8522F - REMINGTON SOFT TOUCH231U								
Reg. #: 3836635 3/4 SM 1/4 AN								
EPD	CE	BW	WW	YW	ADG	MCE	MM	MWW
	12.1	2.3	85.0	126.9	0.26	6.3	28.1	70.6
EPD	CW	MARB	FAT	REA	API	TI		
	41.2	0.13	-0.075	0.71	131.8	81.2		

KECH MR. 875 was our choice in CK BAR RANCH 2021 production. I really liked his phenotype, he is a powerful bull with a large hip, wide based, with extra growth. His dam is a nice uddered cow. KECH 875 will produce females that will milk and have some eye appeal. This bull intrigued us because of his calving ease and out cross pedigree we will let you decide.

PF RESILIENT 221								
SITZ RESILIENT 10208 - PF QUEEN MOTHER 807								
Reg. #: 4414403 PUREBRED AN								
EPD	CE	BW	WW	YW	ADG	MCE	MM	MWW
	17.5	0.1	99.4	168.3	0.43	7.5	22.6	72.1
EPD	CW	MARB	FAT	REA	API	TI		
	99.8	0.84	0.052	1.29	152.5	94.6		

PF Resilient 221 was our #1 pick at the ND Angus Association State Select Sale. He is an eye-appealing bull that has a modest birth weight of 77 lbs and impressive 845 adjusted 205 day weight. PF Resilient 221 has a set of EPDs that has to impress the most comprehensive cattlemen. He is in the top 25% in 10 categories. When contemplating on what direction we were going in when selecting a new Angus herdsire we wanted a moderate frame with bold smooth shoulders, an abundance of middle followed up by a meaty rear end that was structurally correct and sure footed. We felt PF Resilient 221 checked every box and would make a great pairing with our purebred Simmental cows.

Reference Sires (cont.):

TEHAMA TAHOE B767								
TEHAMA UPWARD Y238 - TEHAMA MARY BLACKBIRD Y684								
Reg. #: 3396482 PUREBRED AN

EPD	CW	MARB	FAT	REA	API	TI		
	59.4	0.79	0.032	0.48	162.2	94.5		
<p>Tehama Tahoe is an AI sires from the Angus breed, he is proving to be a perfect fit on our Simmental influence heifers. He will take you in the right direction for a wide variety of traits. Few sires can match his calving ease, performance, maternal traits, while improving phenotype and longevity. He is widely used on both Simmental and Angus cows. He sires calves that are easy-fleshing and deep ribbed. His heifers have excellent udder quality and teat length.</p>								

COLORADO BRIDLE BIT E752								
HOOK'S BOZEMAN 8B - BRIDLE BIT MISS B452								
Reg. #: 3271382 PUREBRED SM								
EPD	CE	BW	WW	YW	ADG	MCE	MM	MWW

EPD	CW	MARB	FAT	REA	API	TI		
	27.6	0.25	-0.091	0.73	152.7	85.5		
<p>Colorado Bridle Bit has been an AI sire we have used for the second consecutive year. He produces sons that are eye appealing and highly sought after. His daughters have beautiful udders and we are looking forward to his daughters beginning their production year this calving season. His calves have tremendous vigor at birth. His name is in almost every Simmental catalog because he is the go to bull for first calf heifers. We hope he will be siring our offspring for years to come.</p>								

HABR EAGLE K201								
HOOK'S EAGLE 6E - HABR FRANKIE F864								
Reg. #: 4091829 5/8 SM 3/8 AN								
EPD	CE	BW	WW	YW	ADG	MCE	MM	MWW
	12.8	-2.5	87.2	128.8	0.26	5.3	19.4	63.7
EPD	CW	MARB	FAT	REA	API	TI		
	45.8	0.45	-0.023	1.38	142.8	92.2		
<p>HABR Eagle K201 was selected from Hall Stock Farm in Berthold as a standout calving-ease son of Hook's Eagle. Individually, he recorded a modest 71 pound birthweight and turned in at weaning with an adj 205 of 755. His Wide Range x Chisum dam combined some of the most regionally potent maternal genetics and was no stranger to this kind of production. She charts individual ratios of 3@97 for BW and 3@107 for WW. It is highly recommended to retain females from this lineage.</p>

An Ignite son with a good amount of chrome on his face that I really appreciate. He has great disposition with style in a power package. He is deep ribbed, wide across the top, his front carries a ton of meat. His dam NLC Elara E85 that we purchased from NLC at the 2019 Montana Choice Simmental Sale, has been one of our top producing cows. Either it is females that we've retained in our herd or bulls that have been chosen to lead off our sale. The mating of Ignite and E85 has resulted in leading off our sale back to back years. M885 brother last year was purchased by another repeat buyer and family Darin Marsh. Our Ignite bull has been a great all around herd sire with consistency at raising top quality females and bull calves that we are proud of to feature in our sales. This bull has an absolutely great hair coat, thick and full and every cattle trimmers dreams. His coat shines with an eye appealing look.

I cannot say enough about his bull's dam. Twice in our production sale she has raised the top weaning weight bull. She is consistent year after year. This year she was the first cow to calf. She is consistent with raising calves that push down the scale along with being fertile and easy keeping with a good disposition. No matter what sire we pair her with she knocks it out of the park and this bull is no different. A Resilient son that is moderate framed with lots of capacity, strong topped, deep sided, and sure footed.

An outstanding mating of Tehama Tahoe B767 and Ellingson/STR Kenzy K2105. This calf has been exceptional since his feet hit the ground. At 79 pounds at birth he jumped up and started growing and never stopped. He was one of our top weaning weight bulls with an adjusted 205 day weight of 799 and when we weaned him within the first 65 days on feed he gained a whopping 5.54 pounds a day. Did I mention he is out of a first calf heifer. His dam K2105 along with her ET sister was our top pick at the Ellingson Simmental 2023 production sale. I think this is a very well rounded bull, he excels in every category. He is sure footed and tracks like a cat. This bull is definitely a herd bull prospect. Don't miss your opportunity to take him home folks. Selling full possession and 2/3 semen interest.

A good Colorado Bridle Bit son out of a first calf heifer. I like this calf for several reasons. He is smooth shouldered, straight topped, with a great and stocky middle. He has a great set of reproduction tools. This bull has lots of natural thickness. M6 has genetics that will determine the profitability of your subsequent calf crops. To top it off he has great calving ease and desired bw to use possibly on heifers.

Solid black son of Ignite that is an eye catcher with all the power any cowman could desire. He will sire calves that will perform on the cow, also in the feedlot, and on the rail. He possesses the power to sire payweight and daughters that will make excellent replacement heifers. His dam's family has been a mainstay in our herd. From the time we bought his granddam R519 at BDV dispersion they have gone on to raise females that are fertile, good mothers, and good udders. Whether you are looking for a bull to raise potloads of pounds or keeping females to put back in your herd this bull should be your front runner.

This bull is an absolute stud. Herd bull prospect. Whether you are a commercial producer or a seedstock producer, this bull will be a difference maker. A bull with an extended amount of chrome on his head. This bull has a stacked pedigree with his MGS, Sys Rifle B59, that gives him his extraordinary width over the top, along with his massive rib shape and an impressive rear quarter that goes all the way to his hocks. This bull is just the perfect size in my opinion. To round it all off he has great disposition. There are several really good Ignite sons in our sale but this guy takes a back seat to no one. Selling full possession and 2/3 semen interest.

This guy has been one of my favorite Ignite sons, he is the easy keeping kind. This guy has been carrying flesh since he was just a calf and now he is an absolute tank. If you are looking for an easy fleshing bull, here he is. This guy literally lumbers with power when he walks. He has a massive front quarter with smooth shoulders that blends into his massive bulky thick neck. This bull is robust from head to tail. This guy will make great females and steer calves that will literally crush down the scale. His pedigree might be a bit incomplete but as a bull he is very complete. He stands on excellent feet. Do not miss out on this robust bull. To top it all off he has just a bit of chrome on his forehead. In addition he has a great disposition.

He is quite a bull and does not take a back seat to his big brother that was sold two years ago in our production sale who was our top selling bull that was purchased by our repeat buyer and friend Craig Hystaad. This bull is complete in his makeup, has exceptional length with an extra spring of rib with sound feet and legs. This bull will raise great females that will be beef making machines, heavy milking and good uddered. This bull has tremendous potential. He is the real deal. A true herd bull prospect. A bull you can buy with confidence.

A real eye pleaser out of HABR Eagle K201. A good performing calf that has some body to him with added length. His sire is stacked with a pedigree of easy keeping, excellent uddered cattle. He will sire cattle with top notch easy keeping ability and eye appeal. M556 was orphaned in early June and survived off of mother nature and his strong willed instincts to survive and still weaned in the fall at an adjusted 205 day weight of 730 pounds. He didn't stop there, his post 65 days weaned his ADG was 4.34. This bull has genetics stamped into him.

WOW! What a calf out of a first calf heifer. An impressive stout made dude. That is a meat machine. He has great depth of rib, a meaty front quarter and smooth thick shoulders and followed up with a good rear quarter. This Tehama Tahoe son will raise elite heifer calves that will perform well. He puts it all together from a moderate birth weight to an impressive 205 day weight. Don't miss your chance to own him.

Solid black bull out of a first calf heifer. A bull that is very smooth in design. A real eye pleaser out HA Covenant 30K. This bull truly puts it all together with plenty of depth and length of body and heavy muscle in exceptional capacity. He is a dandy! He will add value to your herd in a hurry. When I seen that LRS was offering a female that was up for sale I thought I needed to take advantage of the opportunity. This bull comes from a cow family with an astounding pedigree. This bull is hard to part with. This will has the potential to be your next herd sire and is going to set the pace in the cattle industry.

Solid black bull out of a first calf heifer. When I was selecting females we decided to go purchase bred females from THSR. Their cattle fit very well into our herd. I think this bull will also fit well into anyone's program. He is straight made, good footed, moderate framed, and is cool as a cat. He has an excellent set of CE EPDs. You may want to consider using this bull on your heifers and be able to sleep soundly at night.

Out of our new herd sire Ellingson Turnpike K252 one of his many traits is added length. This bull followed his sires trait and also followed it up by having a good spring of rib and a straight top line, and square hipped from his tail head to his pin. If you are looking to raise some top shelf replacement heifers, this bull is the step in the right direction.

Resilient son that needs a second look on sale day. I think you have to appreciate him in his uniform package. He has all the right characteristics. He is smooth shouldered with a big ole spring of rib. When I was looking for my next herd sire I wanted a bull that would compliment our Simmental influenced cows. I think the mating of 4E Pretty Woman G183 and PF Resilient 221 is a good example of what Simmental crossed Angus cattle can be, which is good function cattle.

A beautiful headed bull with extra dimension with a big front quarter that continues deep into his middle. He completes himself with a really good rear quarter. He is wide topped, when you look at him from the back he has good expressions. He is the only purebred Angus bull calf in the sale. For an Angus bull calf he is quite impressive and to top it all off he has a great disposition.

Bred and Open Heifers

As mentioned in our welcome letter we had been selling our registered bred and open heifers at the NorthWest North Dakota Select Simmental Sale and after 15+ we have decided to sell the registered heifers in our own sale and hence will no longer be selling animals at the NWNDSSS. We are grateful to have had the opportunity and for all those who purchased our animals throughout the years. We are excited to start selling registered heifers in our sale and the chance to really showcase the new genetics we are featuring this year and the years to come!

For our first year of selling registered heifers we really wanted to feature heifers that come from some of our top consist cow families that year after year give us high performing calves and continue to pass down the docility, fertility, and longevity. 4 of the heifers share the same bloodline that comes from one of our active dam who is our second oldest cow in the herd. A few of the heifers are truly hard to part with but we wanted the best to put in your herd!

Please Bring Your Trailer to the Sale!

We encourage you to bring your trailer with you to the sale as the heifers need to be picked up sale day. Especially for the bred heifers as they are due very close to the sale date. If you are unable to bring your trailer or thinking about buying the heifers please contact Loren at (701) 641-1140 for delivery arrangements!

Bred Heifers

All bred heifers were ultrasounded the first of October by Dr. JJ Hovde and bred to impressive service sires, Tehama Tahoe B767 & Bridle Bit GPS H078 (3724850). Bridle Bit GPS H078 is the sire to our last year's highest selling bull - Sorenson Bridle Bit GPS L105. Except to see Bridle Bit GPS H078 as one of our reference sires in the next couple years to come. The heifers calving date is listed to the best of our knowledge.

Solid black half blood female that is feminine looking and highly functional, structurally sound and comes from another good cow family that is heavy milking. Straight topped and big hipped. Her dam and granddam have raised bulls that we have featured in our annual production sales.

50 Commercial Heifers

Lot 73 is 5 commercial black baldy heifers. Lot 74 is 45 commercial black open heifers. These heifers will come in weighing approximately 785 pounds on sale day. We feel this is an exceptional set of commercial open heifers. The heifers we select to retain in our herd and the ones that are in our offering were born during the 1st and 2nd cycle. We believe that by keeping only the 1st and 2nd cycle born heifers that it keeps up their fertility and passes down that same fertility in the offspring. These heifers come from the heart of the commercial and registered. These heifers are Simmental and Angus crossed and sired by Sorensen Ranch raised bulls out of our registered herd.

Upcoming 2026 Herd Sire

QB IRONMAN K42

When we purchased QB Ironman from Quandts last year, which was a unique opportunity. Initially, he faced an infection that prevented him from passing his semen test, leading the original buyer to move on. However, after recovering and successfully passing his test, we were fortunate enough to add him to our program. We couldn't be more excited about his potential. QB Ironman is a bull that commands attention in the pasture with his tall, long-bodied frame, tremendous depth, and natural style. He carries himself with a presence that speaks to his quality, yet he maintains a great disposition. What truly sets QB Ironman apart is his pedigree. On both sides of his lineage, he's backed by proven performance. His sire, Ironsides, has been the highest-grossing sire group for the past five years for Quandts and daughters are doing good work in the herd. His dam has raised a calf every year with 6 females working in the herd along with selling two bulls in the sale. His EPD profile is well-balanced, reflecting, growth, and maternal strength. We're confident that QB Ironman will produce calves that meet the demands of both purebred and commercial operations. We're eagerly awaiting his first calf crop and are confident that QB Ironman will be a cornerstone in our herd's success.

Semen Interest

When we were on a search for a new herdsire we traveled to 9 seedstock producers spread across Montana, North Dakota, and South Dakota viewing over 750 bulls. The 9 seedstock producers sure had an impressive set of bulls to null over and along with Ben Eaton we agreed that QB Ironman K42 was in a class all by himself and with this unique opportunity we now own QB Ironman K42.

We are offering his semen for sale at \$50/unit.

Contact Loren at (701) 641-1140 for any questions or interest!

A Big Special Thanks

We want to say thank you to those who have attended previous sales and to last years buyers both new and returning. Thank you to last years buyers- Ryan Bendixson, Greg & Carmen Bendixson, Greg Bergquist, Glenn Bummer, Shane Clark, Kevin Craft, Jason Folvag, Effie Iverson, Jacobson Livestock, Brian, Erin & Addyson Johnson, Amber Ledahl, Darin Marsh, Beau Matson, Kenny Melby, Blake Moody, Tate Mrachek, Bernie Mrachek, Nelson Farms, Shalene Nygaard, Tom Ostby, Marty Pederson, Prewitt Land & Livestock, Jen Pulvermacher family, Shania Rolla, Shayla Rolla, Kelly & Lance Skor, Josh Smith, Leroy Sorenson, Joshua Stentoft, Tveit Land & Cattle, Kevin Wilson

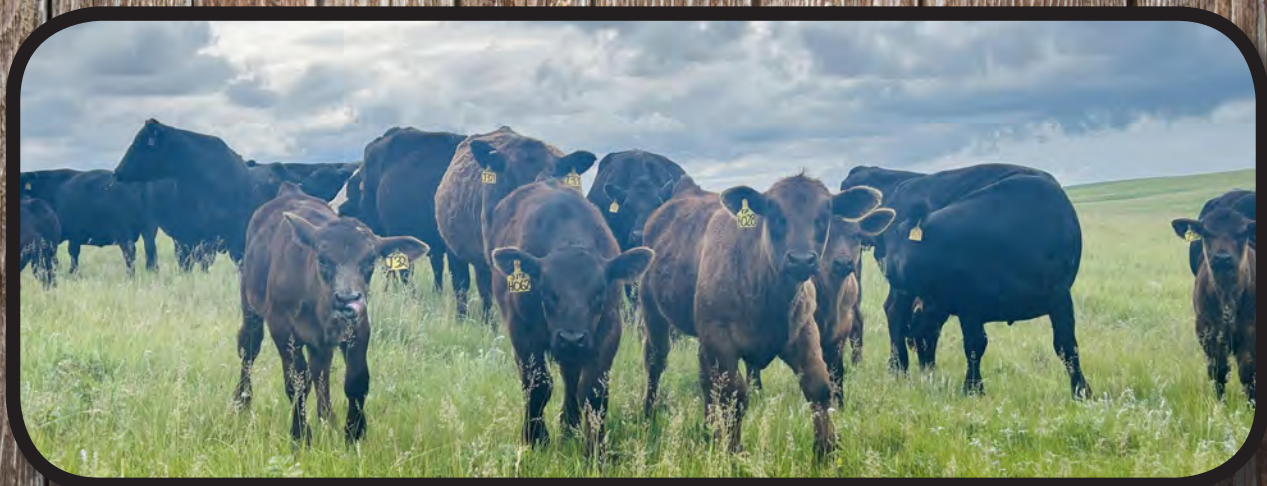

Thank you to everybody that has helped with all the preparations of the sale from trimming, clean-up on the bulls for pictures, videos, and sale days, and everything in between. Thank you to Ian Hall and Rafter H Ag Enterprises LLC for trimming the bulls. Thank you to Mary Hattel and Jeff Skabo for helping with trimming the bulls and heifers and taking pictures, year after year they are great help! Thank you to AJ Moran and Ledger Pulvermacher for coming to the ranch and helping with the bulls and heifers. Thank you to our cattle herdsman David Naude for all his hard work.

Lot 6 enjoying his picture time with Mary Hattel and the flag. Mary Hattel has been a family friend for many years. Mary is a big contribution to the quality of pictures the bulls and heifers take. We are very thankful for Mary and all the times she is available to help!
